Charging

Charging the earbuds: Place the earbuds in the charging case; the case will start charging them.

Charging the case: Use a USB-C (Type-C) cable to charge the case. The indicator light remains solid orange while charging and turns solid green when fully charged.

Turning on

When the charging case is opened, the earbuds will automatically turn on.

Sleep Mode

Place the earbuds back in the charging case and close the lid. The earbuds will automatically disconnect and enter sleep mode.

Wearing

1. Remove the earbuds and gently open the connecting bridge. Clip the earbuds onto your ears, positioning the transparent spherical speaker units in front of your ears and the curved battery compartments naturally behind them.
2. After putting on the earbuds, slightly adjust their position or angle until they fit comfortably and securely for better sound quality.

Wear Detection: Audio automatically pauses when the earbuds are removed and resumes if they are worn again within 2 minutes. After 2 minutes, playback will not resume automatically. This feature is enabled by default and can be configured in the Bluetooth settings on Xiaomi phones or in the Xiaomi Earbuds app.

Note: During use, do not excessively stretch or twist the connecting bridge. If the earbuds feel uncomfortable, gently rotate the curved battery compartments and transparent spherical speaker units, then adjust the position and angle of the earbuds on the outer ears.

Pairing and Connecting

1. Open the charging case with both earbuds inside and keep the lid open. Press and hold the case button for 2 seconds until the indicator flashes. The earbuds will enter pairing mode.

2. Turn on Bluetooth on the device to be paired, then select the earbuds from the Bluetooth device list to connect.

Note: Opening the charging case for the first time automatically puts the earbuds into Bluetooth pairing mode. During daily use, opening the charging case automatically reconnects the earbuds to the last connected Bluetooth device (the device must be within Bluetooth range).

Dual-Device Connection

The earbuds can remain connected to two Bluetooth devices simultaneously.

After successfully connecting to the first Bluetooth device, place the earbuds in the charging case and keep the lid open. Press and hold the charging case button for 2 seconds until the indicator light flashes, then pair with the second device. Once pairing is complete, the earbuds will automatically connect to both devices.

Note: Dual device connection is enabled by default.

Restoring Factory Settings

Remove the earbuds from the Bluetooth device list. Place them in the charging case with the lid open, then press and hold the charging case button for 10 seconds. The indicator flashes slowly three times, then rapidly. The earbuds are reset and enter pairing mode.
